TOKYO PACK 2018

"Let's Create Packaging for All Our Tomorrows"

The Tokyo International Packaging Exhibition, TOKYO PACK 2018, was held at Tokyo Big Sight East Halls 1-6 from Tuesday, October 2 to Friday, October 5 under the sponsorship of the Japan Packaging Institute (JPI).

TOKYO PACK, held every two years since 1966, is celebrating its 27th event as the biggest gathering of international packaging industry representatives in Japan. For over half a century, TOKYO PACK has been continuously evolving as an exhibition symbolic of the development of the packaging culture and industry of Japan. In recent years, attention given to the exhibition from packaging communities both in Japan and abroad has grown to such an extent that TOKYO PACK now enjoys a firm position as one of the most notable international exhibitions in the world.

Under the theme of "Let's Create Packaging for All Our Tomorrows," 700 exhibitors and the packaging related people worked hard for the great success of TOKYO PACK 2018, attracting over 200,000 visitors.

We are confident that TOKYO PACK 2018 served as a platform for transmitting packaging-related information and stimulating the creation of new demand and business in the packaging industry.

We hereby report the successful conclusion of this exhibition and encourage you to refer to the report attached hereto for detailed results. Finally, we would like to express our heartfelt gratitude to each of the exhibitors and the people from the co-sponsoring organizations in Japan and abroad for their kind cooperation and work.

Organizer - Japan Packaging Institute (JPI) :

Japan Packaging Institute (JPI) was established in March 1963, and was upgraded to a legal entity in June by the Minister of International Trade and Industry. With the doctrine of "Challenging the future of packaging by means of originality and ingenuity", the juridical foundation, Japan Packaging Institute, has been promoting the rationalization of production and distribution as well as consumption through improvement and elevation of the packaging technique and thereby contributing to the progress of Japan's economy.

The results of such efforts range broad from the investigation and research of packaging to the preparation and formulation of standards, the holding of study meetings, seminars, assemblies, symposiums, etc., the fostering of capable packaging specialists, the sending and acceptance of observation groups to and from overseas and so forth. All of these results have highly been evaluated in various industries.

JPI was authorized as a Public Interest Incorporated Association by Cabinet Office in October 2011, and registered on November 1, 2011.

Purpose

By promoting packaging know-how and technology, and training personnel in these matters, Japan Packaging Institute (JPI) aims to promote the growth of the Japanese economy, improve the overall well-being of our citizens, and contribute to the international community - all of which are in the public interest of our country.

Organization
