

## **TOKYO PACK 2021 COVID-19 Infection Prevention Measures**

The TOKYO PACK 2021 Secretariat requests all the visitors to follow the measures as below to prevent COVID-19 infections.

- Please be sure to wear a face mask when visiting the venue.
- Temperature check will be conducted to all the attendees before entering the exhibition venue.
- We will monitor the number of registered visitors on a daily basis which will be made open on the website.
- At all the entrances and exits, visitors are checked by barcodes scanners to regulate the capacity and flow of people following the Tokyo Big Sight guideline.
- Sanitizer dispensers are installed in the halls and common areas, and the facilities are frequently cleaned and disinfected.
- We will keep sufficient space for the passage in the venue, enough distance between seats in the seminar rooms and will control the flow of people at the entrance for social distancing and for ventilation.
- Please install the COVID-19 Contact-Confirming Application (COCOA).
- The Secretariat will provide common rest spaces with the preparation for infection prevention.
  
- The following persons will not be admitted to enter the exhibition venue.
  - \* Those who have suspicious symptoms as follows:
    - over 37.5°C body temperature
    - cough
    - shortness of breath or difficulty breathing
    - sore throat
    - fatigue
    - new loss of taste or smell
    - in a bad physical condition
  - \* Those who are under health observation at a health center.
  - \* In case you have traveled to the restricted countries or areas by the Government within the past 14 days.

*The details are subject to change in accordance with the COVID-19 situation.*
